

KOZI Previa Cast Iron Pellet Stove

The highly efficient, environmentally friendly, and economically priced **KOZI Previa** pellet burner is one of the best available on the market today. Loaded with state of the art features, this pellet burner will provide you with years of trouble free heating comfort. The attractive and versatile casting guarantees this stove will fit into any décor. With our MX digital control board, the choice is yours, either run your stove with a simple touch of a button, a wall-thermostat, or a seven day timer. The **Previa** is now available in a variety of casting colors!

Previa Cast Iron Pellet Stove

Design Features

Enjoy the warmth and comfort of a **KOZI Previa** pellet burner. This state-of-the-art burner has been designed for years of trouble-free heating and enjoyment. The entire **KOZI Pellet Burning Line** is an environmentally friendly heating alternative. High efficiency, clean burning, and low emissions are just some of the positive effects of burning waste wood by-product pellets in a **KOZI**. The **Previa** pellet burner has been tested to meet and exceed the most stringent Canadian, USA and EU quality and safety standards. Standard features include an electric start kit and a removable ashtray. Optional features such as a variety of color casting, wall-thermostat kit, and a remote control may be added.

The Heater

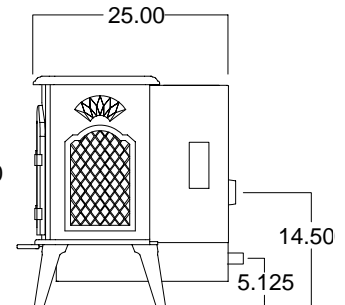

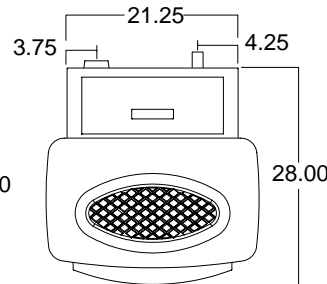

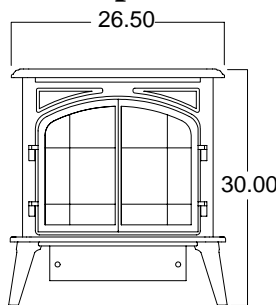

- 10 tube Heat Exchanger.
- A 60 lb (27 kg) feed hopper
- Large capacity ash reservoir reduces cleaning frequency.
- Top loading fuel feed system separates the burn pot from the fuel storage, reducing risk of a burn back.
- Negative pressure burn box prevents spillage of smoke and fumes into the house.
- The MX Control gives the option of running the stove on Automatic (On/Off), Hi-Low or Manual Mode.
- Comes standard with a self ignition system.
- Manual draft control allows easy adjustment for fuel and draft variations.
- Adjustable fuel feed, ranging from 1 to 4.5 lbs (454 grams to 2 kg) per hour.
- Automatic fan speed control.
- The Air wash system helps keep the glass clean longer.
- Certified for mobile home installation.
- Able to attach to a wall-thermostat, a remote control, or switching device.

The Body Construction

- All visible corners are finished for safety and appearance.
- Heavy Cast Iron body.
- Clear large ceramic glass rated to 1400°F (760°C).
- Stainless steel burn pot for prolonged life.
- Aluminized steel interior heat shields resist corrosion.
- Equipped with a heat exchanger cleaner.
- Easy access side mounted controls.
- Tapered exhaust tube to fit most models of vent pipe.
